The Ken Sanford, DDS Memorial Ride has provided 9 years of fun and fellowship for California dentists with motorcycle and bicycle rides. It has also been a fundraiser for the California Dental Association Foundation. This year we will be hosting the ride in Eastern Oregon and would like you to join us.

Traditionally we have combined the ride with continuing education but due to this year's location we have planned a more social event. Rides will be planned but there will not be a formal group. Everyone can choose to ride where, when and how they wish. We will socialize in the afternoon/evening but it will be kept informal. Baker City has several venues that would be great for a casual get together.

This is a great location for rides. Plan to spend some time in the area and really enjoy it! The ride is not limited to dentists so be sure to invite your friends that you ride with. Several non-dentists will be attending .

Please join us! **Be sure to book your room prior to February 14 to get the group rate!**
